

The Uncoupled Morkels

Morkel names obtained from Family search.com scans of archival documents and other sources who cannot be linked to the Morkel Genealogy

- (xn) Anna Maria MORKEL * 1920 x Mayfair, Johannesburg 18 Nov 1938, Leslie Richard HUDSON * 1927 (mr).
- Witnesses are Herman Johannes MORKEL and Herman Johannes MORKEL (snr). It is plausible that the senior Herman Johannes is the same as f2 Herman Johannes MORKEL * 1858, that the other witness, Herman was his son (i.e. brother of Adam and Lea) and Anna Maria MORKEL his daughter. We need archival evidence.

- (xn) Petrus Johannes MORKEL ≈ 17 Dec 1797 Cape of Good Hope. Parents: Johannes Theodorus MORKEL x Hester Magdalena FERRIERA, living at Waveren (Tulbagh). Johannes Theodorus MORKEL would have been born around 1770 to 1780. The only Morkels which could have been his father would be 2nd generation b4 Willem MORKEL who would have been 50 to 60 years old, or one of his oldest three sons, Philip Hendrik ≈1760, Willem *1761 or even Daniel Johannes *1764. Johannes Theodorus is not in any Morkel genealogy and he lived at Waveren. Why? Was he the son of a Morkel with a slave?

Our list contains more than 60 names.

Because we cannot link them, we can also not assign the two digit alphanumeric code we use in our genealogy. Thus they are designated (xn) (x for unknown which generation they are and n for unknown where in the sibling order. When children are listed, I used y i.e. one generation further than x and the numbers where they fit as sibling.

* born; ≈ christened; † died; x married; xx 2nd marriage; = divorced; d.o. daughter of.
